

Chateau Le Parc

Lake House

FLORA DI MENNA DESIGNS was founded in 1987 and since then, under the creative direction of Flora herself, this Toronto based interior design firm has garnered numerous awards for excellence. Two further prestigious design awards have now joined FDM Design's already impressive list.

The first is 'Lake House' which is in a fabulous location overlooking Canada's beautiful Northern Lakes. Along with the clients' request to maximise lakefront views, they desired a large, open, expansive space which would also reflect a feeling of intimacy and a human scale. Accordingly, FDM Designs has not only met but exceeded the challenging task of harmonising the modern home with its natural landscape with a carefully curated collection of furniture, artwork and

colours. Making the interior as one with its surroundings, it evokes a sense of peace while also inspiring thoughts of adventure.

Chateau Le Parc is an elite event venue of over 35,700 square feet in Concord, Canada. Constructed to create a sense of grandeur and elegance, it also maintains the symbolic interweaving of historic and modern design. The space had to flow logically and functionally from one area to another while multi-functionality was a further major consideration. FDM Designs' resulting sophisticated blend of minimalist shapes, opulent accents and classic, subdued colour scheme fuses classic style with contemporary concepts. Capturing the unique essence of the event business, this design makes a lasting impression on all who step through the door.
